DETAILED ACTION

Allowable Subject Matter

1. Claims 21-36 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 21 recites a system for determining an aspect of a biological fluid. The system is comprised of a test strip meter; a test strip having a sample port, channel, measurement area, and a compressible bladder; a test strip holder having a support and a lip - the lip extending toward the support to at least partially surround the measurement area of the test strip and define an opening between lip and the support; and a bladder actuator. Claim 31 recites a method that includes using the elements of claim 21 as well as the formation of a seal. The Examiner did not find this combination of features in the prior art. The Examiner considers the cited Naka reference as being the closest prior art. Naka teaches a device for examining a test strip having a bladder, but does not teach the holder elements recited by Applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
